

FUT Series RF LED Controller Selector Guide

The Mi-Light, Mi-Boxer series RF LED controllers comprises of 5 types, compatible with hand-held remotes and wall mount Touch Panel controllers. Utilising advanced RF 2.4GHz wireless with high output signal to achieve long transmission distances and reduce interference by obstacles.

FUT-036 LED Wireless Receiver/Driver Dimming

Wireless RF 2.4GHz Receiver Driver
Low Voltage 12-24VDC
Single channel Dimming
1-Channel 12A/channel
Signal auto-transmitting
Auto sync between controllers
Transmission distance up to 30 metres
Compatible with hand-held remotes and wall touch panel controllers

FUT-035 LED Wireless Receiver/Driver CT Control

Wireless RF 2.4GHz Receiver Driver
Low Voltage 12-24VDC
CT (Colour Temperature)
2-Channel 6A/channel
Signal auto-transmitting
Auto sync between controllers
Transmission distance up to 30 metres
Compatible with hand-held remotes and wall touch panel controllers

FUT-043 LED Wireless Receiver/Driver RGB

Wireless RF 2.4GHz Receiver Driver
Low Voltage 12-24VDC
RGB
3-Channel 6A/channel
Signal auto-transmitting
Auto sync between controllers
Transmission distance up to 30 metres
Compatible with hand-held remotes and wall touch panel controllers

FUT-044 LED Wireless Receiver/Driver RGBW

Wireless RF 2.4GHz Receiver Driver
Low Voltage 12-24VDC
RGBW
4-Channel 6A/channel
Signal auto-transmitting
Auto sync between controllers
Transmission distance up to 30 metres
Compatible with hand-held remotes and wall touch panel controllers

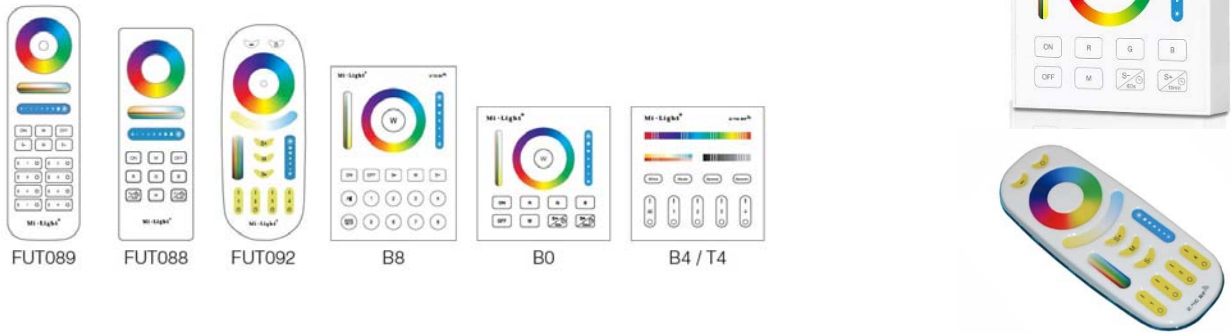

FUT-045 LED Wireless Receiver/Driver RGB+CT

Wireless RF 2.4GHz Receiver Driver
Low Voltage 12-24VDC
RGB+CT
5-Channel 6A/channel
Signal auto-transmitting
Auto sync between controllers
Transmission distance up to 30 metres
Compatible with hand-held remotes and wall touch panel controllers

Compatible with Hand-held LED controllers and Touch Panel Wall plates

WL-BOX1 Gateway RF to WiFi

Compatible with Mi-Light RF 2.4GHz FUT series RF LED controllers
Input: DC5V/500mA (Micro USB)
Communication Mode: WiFi-IEEE 802.11b/g/n
Transmitting power: 6dBm

Supports 3rd party Apps

Voice control from 3rd party voice control and smartphone Apps

We offer an extensive range of LED driver power supplies compatible with the FUT series.
